DETAILED ACTION

Due to the complex nature of the claims, no request for an oral election is being made. Please see MPEP 812.01.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, drawn to a method of modifying vasoactivity.

Group II, claim(s) 4-15, drawn to treatment methods and pharmaceutical compositions.

Group III, claim(s) 16-18, drawn to a diagnostic method.

Group IV, claim(s) 19-21, drawn to method for modifying inflammatory reactions.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is drawn to a distinct method of modifying vasoactivity which does not require treatment of a patient as set forth in Group II. Additionally, Group III is drawn to a distinct diagnostic method which involves method steps not required by Groups I or II or IV. Finally, Group IV is drawn to a distinct method of modifying inflammatory reactions in microglia and neurons which is not required by the claims in Groups I, II. Each

group recites different methods having different method steps, different effects and different goals.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
